-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 7/28/06 have been fully considered but they are not persuasive. With respect to the support surface and support table, Lemelson teaches the use of adjustable support table and surface to engage a particular region of interest of the patient (col. 6 lines 42-45). Lemelson clearly teaches the use of an adjustably positionable table (col. 7 lines 14-15) and a support surface engaging the portion of the patient to be imaged (col. 7 lines 5-10). With respect to claim 21, parts of the patient can be moved relative to the support structure (col. 10 lines 21-25) when the patient is in the circular region (fig. 2). With respect to claims 5-20, examiner believes that the elements are disclosed in the Matzuk reference. Please refer to previous office action.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, 4, and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Lemelson (6058323). Lemelson disclose a medical imaging system and method comprising a patient support surface, an imaging apparatus with a chamber to receive a portion of a patient to be imaged with a support table, which is adjustable relative to the

Art Unit: 3737

support surface (abstract, col. 7 lines 5-15, col. 10 lines). The system also includes sensors to indicate orientation of the patient (col. 10 lines 12-30 lines 37-40).

3. Claims 5-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Matzuk (3964296). Matzuk disclose an ultrasound scanner assembly comprising a base, a drum rotating on the base for receiving a portion of a patient (col. 4 lines 19-30 lines 61-68, col. 5 lines 8-22), a transducer head rotating with the drum and displaced relative to the drum along an axis parallel to the axis of rotation, said head including a plurality of transducers each operable to propagate a wave along an axis of propagation to receive signals from respective focal zones spaced relative to one another along said axis of propagation (col. 4 lines 54-60, col. 5 lines 33-35). The scanner assembly includes overlapping focal zones and data from each signal in overlapping portions of the focal zones is compared to conform the signals to a common base (col. 26 lines 32-43). The system including adjusting means to assist with specific positioning of the scanner with respect to the specimen (col. 8 lines 50-58).

Conclusion

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3737

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
